

Marshmallow Shooters

Supplies:

- 1 clean plastic cup
- 1 balloon
- 1 pair of scissors
- Marshmallows
- A rubber band

Steps:

1. Cut the bottom off the cup with the scissors.
2. Tie a knot at the neck of the balloon and snip off the tip.
3. Stretch the balloon over the top of the cup.
4. Put the rubber band around the balloon once it's on the cup to keep it in place.
5. Pop your "missile" into the cup.
6. Fire the missile by pulling the knotted neck of the balloon and letting go. You will be surprised at how far it will go.
