

Water Balloon Piñata

Supplies:

1. String & scissors
2. Rope
3. Balloons – supplied by the library
4. Water
5. Stick or bat

Steps:

1. Tie strong rope between two strong posts or branches. Secure with double knots and make sure the rope is sturdy.
2. Fill your balloons with water (make sure to have them rest on something smooth when filling them)
3. Cut a piece of strong string, and tie one end to the balloon.
4. Tie the other end to the strong rope
5. Give your child a stick or bat and have them swing at the balloons until it bursts!

TIP: If you have a clothes line, that would work too! Up for a challenge... use a blindfold!
