

## Water Balloon Volleyball

### **Supplies:**

1. water balloons – supplied by the library
2. 2 towels
3. Tape or a rope – a clotheline would work too!
4. A pail or bucket

### **Steps:**

1. Fill up a pail or bucket with a few inches of water. With a garden hose, fill up your water balloons over the pail so they fall into it when they are full. (be gentle, they are delicate)
2. Split up into teams of two. Each team needs a towel. Make sure you have the water balloons ready. If you have a volleyball or badminton net, set it up. If you don't, lay out some tape or a rope on the ground.
3. Place a balloon on one of the towels...and launch!
4. The kids on the other side try to catch the balloon in their towel and send it back.

In this game, it's very important that you communicate with your partner and work together!

TIP: Each team should have a runner getting balloons for them and placing them on the towels.
